**B. H. BRISTOW,**

SUBJECT TO THE DECISION OF THE

The Chicago and North-Western Railway will, on and after May 1st, 1876, and until October 31st, 1876, have on sale in all of its coupon ticket offices, (including its two ticket offices at Omaha), round trip excursion tickets to Philadelphia and New York and return for Centennial visitors. Those tickets, for the round trip, will be sold at one and one-half of the usual rate for a trip one way. They will be of two classes, but will be sold at the same rates. One class of tickets will be good, east of Chicago, going and returning by the same route, and the other class will be good, east of Chicago, going by one route and returning by another, thus offering to the purchasers a choice of routes and chances to see various parts of the country. Neither cars nor trains will be chartered for excursion parties going to the Centennial by this or any other road, nor will rates be less per person for parties large or small. Every person going will have to pay the same rate as is paid by his neighbor. No other road will be permitted to sell round trip tickets for the Centennial at any less rate than is quoted above. Reduced rate tickets reading only to the Exposition will not be sold, and the rates made are all for the full round trip. All Agents of the Chicago and North-Western Railway will, in due time, be fully advised as to rates from their stations for these Centennial tickets, and will, after April 1st, 1876, be glad to answer all inquiries in regard to them.

## RAILROAD LEGISLATION.

The bill introduced in the Senate amending the Pacific Railroad laws, assert that the Central Pacific Railroad has improperly increased its capital stock, securities, etc., without authority of Congress, and such action is destined to postpone any action on the part of the Government fixing the tariff rates, as authorized by law. The bill therefore proposes to restrain the issue or sale of any more obligations of the company, secured by mortgaged upon the main line or lands granted by the United States; also requires a detailed statement of receipts, expenditures to December 31st, 1875.

Also provides that the net receipts be applied first, to the payment of the interest of the first mortgage bonds and the creation of a Sinking Fund; second, to the payment of interest on bonds alleged to be issued; third, to the purchase and retirement of all the last described bonds.

**FINANCIAL.**—Silver Bars are 8@17 per cent. discount in San Francisco. Gold Bars are quotable at \$900@905. Refined Silver is 11@13 per cent. discount. Mexican Dollars are 6@8 per cent. discount. Trade Dollars are 4@5 per cent. discount. Coin Drafts on New York are 1% per cent premium; Currency do, 13% per cent premium; Telegraphic Transfers, 1 per cent premium; Exchange on London, 60 day Bank's, 49@49%; Commercial do do, 49%.

Brokers are buying Legal Tender at 88% and selling at 80.

The highest point that the public debt of the United States ever reached was in 1866, when it was \$2,753,425,870; on the first of this month it stood at \$2,118,397,212, showing a reduction in nine and one-third years of \$865,028,607. It is computed on the best authority that about two-thirds of the indebtedness is held in Europe, leaving \$700,000,000 held in the United States.

There is something elongating in country air. County boys in England average an inch and a quarter more, in height and seven pounds more in weight than city boys.

## THE CENTENNIAL.

The Proposed Pacific Coast Hall at Philadelphia.—A Hall being the California Pioneers contemplate erecting.

At a meeting of the California Pioneers' Society last Monday evening, in San Francisco, Mr. Albert Williams, Chairman of the Pioneers' Centennial Committee of Seventeen, submitted a report, in the course of which he read the following circular, which is to be generally distributed:

"Your cooperation is respectfully solicited in aid of the erection of a Pacific Coast Centennial Hall, in the Centennial Grounds, Philadelphia. The purpose primarily in view in this enterprise is to provide a place of resort and shelter for the people of the Pacific Slope visiting the Centennial Exhibition, and at the same time to make the building, as far as practicable, a Western coast feature by displaying in its interior a flush a variety of its characteristic woods, and the addition of other objects of interest as means at command will permit. A plan of the proposed structure has been drawn by the well known architect, Mr. Gordon P. Cummings, and it is not overstating the truth to say, the building completed will be one of which the Pacific side may well be proud. The building will be of one story, 115x55 feet, with an elevation of 32 feet, and a central dome 41 feet high. It will have a large hall 45 feet wide (55 feet at the transepts) by 88 deep, a circular assembly room 28 feet in diameter, and offices and private rooms, including a postoffice and registry, the whole a unique and resthetic design. As a feasible plan for securing the necessary funds for the erection and equipment of this hall, tickets, translatable, \$5 each, admitting the holder and his friends, will be sold under the direction of the Centennial Committee of Seventeen of California Pioneers. Although inaugurated under the auspices of the Pioneer Society, it is not intended to limit the interest and sphere of the scheme to its members alone. The opportunity to participate in the enterprise is to be thrown open to the Pacific States and Territory, and the special assistance of societies, corporations, orders and individuals is particularly requested and desired, as the object in view is common to all the citizens of the Pacific border. The time allowed for the completion of this undertaking being limited and brief, all possible promptness in responding to this circular invitation is very important. It is therefore requested that all parties favorably disposed will at once apply for tickets to the Centennial Committee, Room, 3, No. 507 Montgomery street, San Francisco, where also all further desired information regarding this scheme may be obtained."

Nevada's subscription of \$1,000 might well be given to the Pioneers to aid in the construction of such a building as they contemplate. We do not see that California and Oregon have joined with Nevada in furnishing accommodations for residents; therefore we are in favor of helping the "old boys."

**A LETTER** from the Leopard says: "The ore breccias in all of the steps above the dyke level are about worked out, and we may be compelled to run the mill on second class and low grade ore for some time. I am prospecting for another chimney of chlorite ore, but as yet, though prospects have been very flattering, we have failed to develop anything of importance. I have discharged fifteen men."

The delinquent assessment list of the Caldonia mine is published. The total amount of the assessment is \$50,000, and over \$55,000 has been paid in. The sale will take place on the 22d. The Trustees are not ready to let out the new stock, though the price of the old issue has been recently doubled on the strength of an early issue of new stock.

**SINCE** the statement to the effect that there was but about thirteen millions of dollars in gold in the United States Treasury, applicable to the payment of the Public Debt, except that set aside for interest already accrued, gold has continued to command a high premium in New York, fourteen per cent. and upward, and there seems little prospect of an immediate decline.

AMONG the population of Virginia City there are thirty-three persons who have served terms in the Carson Penitentiary, and over two hundred and fifty ex-convicts from other States.

SIXTEEN card games and one hundred and eighteen saloons on C street afford evening recreation to the citizens of Virginia. On the same street are bakeries and two churches.

## THE NEW Isthmus Steam Line, Etc.

For some time an opposition steam line has been threatened between New York and San Francisco, via Aspinwall and Panama. Years ago a rival line was quite successful, and business on the Isthmus was lively. The opening of the railroad across the continent drew largely upon the steamer freight traffic, and not only killed all opposition, but reduced the number of trips of the regular line to two steamers per month. This of course has led to diminished receipts on the part of the Panama Railroad Company. This railroad is one of the shortest and most profitable in the world. Its business, however, is dependent entirely upon the success of the steamers. Therefore a very lucrative arrangement has existed between the Panama Railroad Company and the Pacific Mail Steamship Company. The contract is drawing to a close, and all efforts to renew it, on terms acceptable to the Railroad Company, have failed. Hence the recent movements in the direction of an opposition line. At first the Panama Railroad Company attempted to compass the object, but found insurmountable obstacles in the way, involving the loss of charter rights. There is always a way, however, of evading legal enactments, and it is believed that such a way has been found in the enterprise which has been formed under the name of the Panama Transit Company. At any rate, the movement has been so far successful as to indicate some little attempt to start an opposition line. The pioneer steamer of the new line has actually sailed from New York. She is a comparatively new iron propeller of 1,600 tons, bearing the name of South Carolina. She left New York on the 3d direct for Panama via the Straits of Magellan, and is expected to arrive some time next month. The steamers Georgia and Clyde will follow this month. A steamer will leave New York about the 7th of April for Aspinwall to connect at Panama with the South Carolina, which will immediately proceed to San Francisco. The line at first will be semi-monthly. Negotiations are pending for the construction of five new iron propellers of large class, and by the 1st of January next, it is hoped there will be four steamers per month. This is certainly one of the most inviting fields for an enterprise that can be presented. Every year the transit trade between New York and the East Indies must steadily increase. The traffic already severely taxes the facilities of the railroad and the present steam line to Panama. The business ought to double within ten years. The trade of Australasia will also contribute to the same end. Then there is the commerce with Mexico, Central and South America. Comparatively little of this trade is enjoyed by the United States, where the bulk of it may be transferred to this country with properly directed effort. Mexico and Central America abound in rich natural resources, and all the prominent ports should be regularly visited twice a month by the Panama steamers. Peru produces the best sugar in the world, and a demand for the product here would be much to encourage and develop this leading industry there. There is no reason why we cannot use large quantities of nitrate of soda from Peru and likewise from Chili, and in turn supply them with manufactures now so largely imported from Europe. The object is certainly worth the effort.—*S. P. Bulletin*.

**THE WHITE PINE TUNNEL.**—It seems, after all, says the *Bureau Sentinel*, that an attempt will be made to tunnel Treasure Hill, in White Pine county. Some months since we published an item setting forth that Major Henry had organized a company in the East for this purpose. A Burleigh drill and other machinery consigned to Major Henry at White Pine, has just been received at the depot of the Bureka and Paisley railroad in Bureka. This would seem to indicate that active operations are to be inaugurated. The magnitude of the enterprise is not much less than that undertaken by Sutro, and the belief is justified that its successful completion will be of great benefit to the mining world. The opinion has always prevailed among mining men that untold mineral wealth lies locked deep down in the bowels of Treasure mountain. The projected tunnel is designed to pierce the mountain at great depth in one of the most favorable localities. We wish Major Henry success, and hope that he has a full company to back him in his stupendous undertaking.

**WHEN** the wind storm that recently devastated Tejon Pass began there were 100,000 sheep feeding on the plains, thousands of which were blown into the gulches and buried by the driving sand. Over 30,000 were lost. On the San Emidio, cattle which took refuge in the beds of streams were in some places buried out of sight.

**THE** Consolidated Virginia and Bachelor Mining Companies have declared dividends of \$10 and \$1 respectively.

Two of the three companies dealing in stock privileges in Virginia, have either temporarily suspended or permanently closed their business.

## DANBURY NEWS ITEMS.

General Schenck has expressed a desire to be tried in St. Louis.

A man without any arms and with a cold sore on his lip is a dreadful spectacle.

Bill Skaron is a little scrunched fellow, and if he had a red skin might be mistaken for a dried herring.

Don Rice called Parson Brownlow to him, and if the person can get any one to spit on his hands he will fight him.

The Rochester *Democrat* calls attention to the fact that Parton first married his mother-in-law. It is appalling to think of the number of husbands who will be disgusted with themselves when they see what the brave Parton did. This reminds us that there is one advantage the husband will have over his wife. He can marry his mother-in-law, but she can't him.

There is a great deal of suffering in Philadelphia. The city is full of men who have flocked there in the belief that they could readily obtain work. But there is nothing for them to do. In fact work is so scarce in Philadelphia that one man has actually offered \$50,000 for the job of sweeping out the Centennial building. To such great straits are the people pushed for bread.

This talk about the Senate not being what it used to be is all nonsense. It is said it is a Senate of rich millionaires, because Jones, of Gold Hill, is there, and Sharon, and Ferry, and Burnsides. Well in '61 there were Bigler, and Latham, and Chandler, and Ten Eyck, all wealthy for the times.

Gold Hill Jones' wife has a sweet little baby. It enjoyed the reception which his charming mother gave last week. He laughed at one man only. He was a lobbyist, and came to buy his father up with a five-hundred dollar greenback.

A little Danbury boy said at the breakfast table the other morning—

"Pa, I want some milk."

"Is that the way to ask for anything?" inquired the aggrieved parent.

The child hung his head,

"How have you been told to ask?" was the next inquiry.

"Pa," said the young man, in a subdued tone, "it makes my throat sore to say please."

He got the milk, and saved his throat.

Deep-thinkers—Visitors in a coal mine, wondering if they will get out alive.—*Norristown Herald*.

## NEW TO-DAY.

## PROPOSALS WANTED.

## PROPOSALS WILL BE RECEIVED BY THE

Board of County Commissioners of Washoe County, Nevada, from the date hereof until 10 o'clock A. M., on Monday, April 10, 1876, for the building of a County Poor House on the County Poor Farm, in accordance with plans and specifications numbered respectively 1 and 2, now on file in the office of the Clerk of the Board, in Reno, for plan No. 2, bids to be for the building complete; for plan No. 1, bids to be for the entire complete, lower story finished, upper story unfinished, except that the floor is to be laid and partition building put in. The contractor to furnish all material, and will be required to give a bond in double the contract price for the faithful performance of the contract. The Commissioners reserve the right to reject any and all bids. One-third of the contract price will be paid on completion of the foundation and erection of the frame, one-third when the building is enclosed, and the remaining third on completion of the contract. Bids to be addressed to the Clerk of the Board of County Commissioners, Washoe County and marked "Poor House Bid."

By order of the Board, J. S. SHOEMAKER, Clerk.

Reno, March 6, 1876.

## NOTICE.

THE BOARD OF TRUSTEES OF THE CONSOLIDATED POOR MINING COMPANY, a corporation organized under the laws of the State of Nevada and having its principal place of business Peavine, in the County of Washoe, State of Nevada, having presented to His Honor S. H. Wright, Judge of the Second Judicial District of the State of Nevada, within which District the office of the said Company is located, a petition, duly certified by the officers of said Company as by law required, praying that said Company may be disincorporated. Notice is hereby given that said petition will be heard by His Honor S. H. Wright, on the 4th day of May, A. D. 1876, at 10 o'clock A. M. of said day at the Court House, in Reno, Washoe County, Nevada, when and where all persons interested may appear and show cause why they have why the prayer of said petition should not be granted and said corporation allowed to disincorporate.

By order of His Honor S. H. WRIGHT, District Judge.

J. S. SHOEMAKER, Clerk.

RENO, March 6, 1876.

NOTICE IS HEREBY GIVEN THAT IN pursuance of an order of the District Court, of the Second Judicial District, of the State of Nevada, held in and for the county of Washoe, made on the 7th day of February, A. D. 1876, in the matter of the guardianship of E. A. Fish, a minor; the undersigned guardian of the person and estate of said minor, will sell at private sale, to the highest bidder, for cash, and in U. S. dollars, subject to confirmation by said District Court, on Thursday, the 23d day of March, A. D. 1876, at 1 o'clock p. m., at the office of the County Recorder, Court House, Reno, all the right, title, interest and estate of said minor, in and to all that certain lot, piece or parcel of land, situate, lying and being in the county of Washoe and State of Nevada, described as follows: to wit: The Southeast quarter of Section twenty-eight in Township sixteen, North of Range eighteen East as per public surveys of the United States. H. J. FISH, Guardian of said minor.

RENO, March 7th 1876.

RENO WATER CO.—Location and principal place of business, Reno, Nevada.

Notice is hereby given that a meeting of the Board of Trustees held on the 7th day of March, 1876, an assessment (No. 6) of five per cent. on the capital stock of the corporation was levied, payable immediately in gold coin to the sum of

any stock on which this assessment shall remain unpaid on the 6th day of April, will be delinquent and advertised for sale at public auction and unless payment is made before, will be sold on Saturday, April 22d, 1876, to pay the delinquent assessment and cost of advertising and expense of sale.

By order of the Board of Trustees.

G. W. J. WILSON, Secy.

RENO, March 7th, 1876.

And in accordance with law and an order of the Board of Trustees, made on the 25th day of January, 1876, so many shares of each parcel of stock as may be necessary, will be sold at public auction, at the office of the Secretary, Reno, Nevada, on the 25th day of March, 1876, at the hour of 7 o'clock p. m., to pay said delinquent assessment, together with costs of advertising and expenses of sale.

JOHN HALLAHAN, Secy.

Reno, February 1, 1876.

GERMAN MINING COMPANY.—Location of principal place of business, Reno, Nevada.

Location of works, Pawnee Mining District, Washoe County, Nevada.

Notice is hereby given that at a meeting of the Board of Trustees held on the 4th day of March, 1876, an assessment (No. 3) of three (3) cents per share was levied upon the capital stock of the corporation, payable immediately in U. S. gold coin to the Secretary, at his office in Reno, Nevada. Any stock upon which this assessment shall remain unpaid on the 6th day of April, 1876, will be delinquent and advertised for sale at public auction, and unless payment is made before, will be sold on Saturday, the 6th day of May, 1876, to pay the delinquent assessment, together with costs of advertising and expenses of sale.

By order of the Board of Trustees.
